

New Orleans RPAC (MIC) as in the past years North Dakota did very well- blew past all of our goals. For this coming year NAR has done away with the fair share goal- now the NAR sets a two year goal for their needs and split it in two. Also once we hit that number we may but not need to send NAR any more dollars, letting us keep those dollars in the state for state and local elections. Also the RPAC year will change back to a calendar year January 1st – December 31st. Finally let's work to get more Realtor's to run for office, local and state.
