

Another year – Another Hill visit. We are seeing new faces, more new members & more new members getting involved in our association- all good news.

R.M.I.C meeting was centered around getting our members active in our communities, boards, etc. Serve on a Realtor board committee or even a NDAR committee. Attend city meets- chamber committees- your church. To make our committees stronger we first must know what our community goals are- give of our time and talents. One may get a bug and run for an office- city, county or state- if so we have RPAC dollars to feed that bug. Another point- our Hill visits always good, but an important thing to remember our Senators and Congressman are busy so get to know their Chief of Staff- text them- best time text is in the evening & weekends (their not busy). Remember the last person the Senators & Congressman speak with before a vote is their Chief of Staff.

Get involved, invest in RPAC and live happily everafter.
