The standing joke of the event was that we left a snowstorm to fly into a hurricane. Compared to what we are used to for our weather, it was not nearly as bad as a could have been and was nowhere near the devastation delivered by the hurricane a month earlier to Florida.

Overall, we have great meetings as I continue to be honored to serve as a Director for NAR representing our over 2,200 hundred members from NDAR, and the now over 1.6M members of NAR. There are and were many highlights from these meetings, and with many of us reporting, I will just give a few.

- Serving on the Exec Committee we had a chance to hear and review the items coming to the BOD. The only real item of contention was the Association Execs award and recognition program that was discussed at length, recommended to be sent back to committee, which the BOD did, for further study. In effect, this program would pit associations against other associations and was largely done behind the scenes that most states CEOs were not happy with. A great example of how well the hall talk and chatter works at NAR
- We had a heart felt update by a delegation from Ukraine that further strengthened our position to support them, and a new International Realtor Relief Fund was established
- Our 2023 President Kenny Parcell had his inaugural, a very touching and deep routed history with him and who we are, and a great understanding of why Riding With The Brand is his theme. NAR will be spending over \$6M in 2023 to support this cause, and I encourage you to research it
- We made changes to ethics, simple updates, changes to some language in Pro Standards, again, mostly updates. There was nothing of any major change in either
- For the first time in several years NAR presented its Strategic Framework and DEI Strategic Plans., They are a good layout of where we are going, and a part of the changes made by the Governance Game Changer PAG from last year. You can find the strategic plan and DEI plan at realtor.nar
- Had a chance to take in the sights at Universal Studios and also see a part of the John Cougar Mellencamp concert. Our ND Night Out was cancelled due to travel and other concerns with the hurricane, and we never did get another chance to get together.

As we continue to build our communities, protect private property rights, fight for the American Dream, and open new doors, don't ever take for granted the impact you can have. That's Who We R. LetsGo!
